Trustee's Message to Participants

Dear Participant:

On behalf of the State of New Hampshire and the College Tuition Savings Plan Advisory Commission (the "Commission"), I am pleased to provide you with your UNIQUE College Investing PlanSM (the "Plan") Annual Report for the one-year period from October 1, 2010, through September 30, 2011.

The Annual Report is designed to provide participants with an opportunity to review the Plan in depth, including the performance of the Portfolios, along with expense, holdings and asset allocation information. Additionally, the *Managers' Overview*, a discussion with Co-Portfolio Managers Andrew Dierdorf and Christopher Sharpe, provides participants insight about the Portfolios' performance, the markets over the past year and an outlook for the months ahead.

As we reflect on the past year of performance, it is clear the investment markets have become increasingly volatile around the world. Despite a strong start to the period, the weight of global economic woes took its toll on equities in the second half. Wrangling over the U.S. federal debt ceiling, followed by Standard & Poor's downgrade of the country's long-term sovereign credit rating, prompted much uncertainty in the U.S. equity market in late July and early August, while foreign markets also struggled with Europe's worsening debt crisis dominating the headlines.

During these uncertain economic times, we understand that our participants are even more concerned about how to save and pay for their children's college education. We are committed to providing you with a diverse range of investment options, including age-based and custom Portfolios. We also are pleased to offer you one the of the most competitively priced college-savings programs in the country. We encourage you to call Fidelity's dedicated college planning representatives at 1-800-544-1914 to review your Plan account to help determine whether your investments are appropriately allocated based on your college savings goals.

Lastly, you can take comfort in knowing that any growth of your Plan investments will be tax deferred and withdrawals for qualified higher education expenses will be free from federal income tax.

Thank you for choosing the UNIQUE College Investing Plan. We look forward to serving your needs for years to come.

Sincerely.

Catherine A. Provencher State Treasurer

Catherine Crovenche

State of New Hampshire

Performance

There are several ways to evaluate a portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

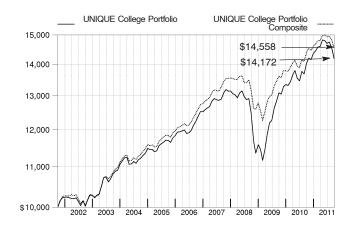

Cumulative Total Returns			
Periods ended September 30, 2011	Past 1 year	Past 5 years	Past 10 years
UNIQUE College Portfolio	1.08%	15.72%	41.72%
UNIQUE College Portfolio Composite	1.16%	16.72%	45.58%
Barclays Capital® U.S. Intermediate Government/Credit Bond Index	3.40%	33.30%	64.81%
Barclays Capital® U.S. 3 Month Treasury Bellwether Index	0.16%	9.35%	22.50%
MSCI® ACWI® (All Country World Index) ex USA Index	-10.71%	-6.90%	96.57%
Dow Jones U.S. Total Stock Market Index SM	0.67%	-3.21%	46.41%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE College Portfolio Composite Index, an approximate weighted combination of the following unmanaged indices: the Barclays Capital® U.S. Intermediate Government/Credit Bond Index, the Barclays Capital® U.S. 3 Month Treasury Bellwether Index, the MSCI® ACWI® (All Country World Index) ex USA Index and the Dow Jones U.S. Total Stock Market IndexSM. These benchmarks include reinvested dividends and capital gains, if any.

Average Annual Total Returns			
Periods ended September 30, 2011	Past 1 year	Past 5 years	Past 10 years
UNIQUE College Portfolio	1.08%	2.96%	3.55%
UNIQUE College Portfolio Composite	1.16%	3.14%	3.83%
Barclays Capital U.S. Intermediate Government/Credit Bond Index	3.40%	5.92%	5.12%
Barclays Capital U.S. 3 Month Treasury Bellwether Index	0.16%	1.80%	2.05%
MSCI ACWI (All Country World Index) ex USA Index	-10.71%	-1.42%	6.99%
Dow Jones U.S. Total Stock Market Index	0.67%	-0.65%	3.89%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

\$10,000 Over 10 Years

Past 10 Years: Let's say hypothetically that \$10,000 was invested in the UNIQUE College Portfolio on September 30, 2001 (past ten year period). The chart shows how the value of your investment would have changed, and also shows how the UNIQUE College Portfolio Composite Index performed over the same period.

\$10,000 Over 10 Years

Past 10 Years: Let's say hypothetically that \$10,000 was invested in the UNIQUE Portfolio 2018 September 30, 2001 (past ten year period). The chart shows how the value of your investment would have changed, and also shows how the UNIQUE Portfolio 2018 Composite Index performed over the same period.

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Performance

There are several ways to evaluate a portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

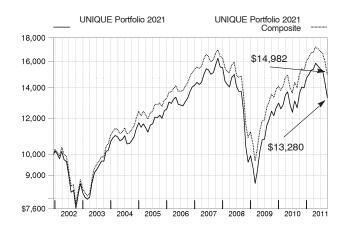

Cumulative Total Returns

MSCI ACWI (All Country World Index) ex USA Index	-15.80%
Dow Jones U.S. Total Stock Market Index	-9.88%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Portfolio 2030 Composite Index, an approximate weighted combination of the following unmanaged indices: The BofA Merrill Lynch US High Yield Constrained Index, the MSCI ACWI (All Country World Index) ex USA Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any.

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year. These numbers will be reported once the Portfolio is a year old.

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

UNIQUE Conservative Portfolio

Performance: The Bottom Line

Performance

There are several ways to evaluate a portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

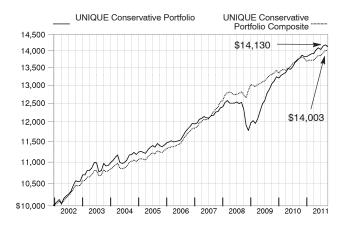

Cumulative Total Returns			
Periods ended September 30, 2011	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Conservative Portfolio	2.47%	19.54%	41.30%
UNIQUE Conservative Portfolio Composite	1.61%	19.63%	40.03%
Barclays Capital U.S. Intermediate Government/Credit Bond Index	3.40%	33.30%	65.45%
Barclays Capital U.S. 3 Month Treasury Bellwether Index	0.16%	9.35%	21.83%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Conservative Portfolio Composite Index, an approximate weighted combination of the following unmanaged indices: the Barclays Capital U.S. Intermediate Government/Credit Bond Index and the Barclays Capital U.S. 3 Month Treasury Bellwether Index. These benchmarks include reinvested dividends and capital gains, if any.

Average Annual Total Returns	;		
Periods ended September 30, 2011	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Conservative Portfolio	2.47%	3.63%	3.59%
UNIQUE Conservative Portfolio Composite	1.61%	3.65%	3.49%
Barclays Capital U.S. Intermediate Government/Credit Bond Index	3.40%	5.92%	5.27%
Barclays Capital U.S. 3 Month Treasury Bellwether Index	0.16%	1.80%	2.03%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

\$10,000 Over Life of Portfolio

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Conservative Portfolio on December 13, 2001, when the Portfolio started. The chart shows how the value of your investment would have changed, and also shows how the UNIQUE Conservative Portfolio Composite Index performed over the same period.

Performance: The Bottom Line

Performance

There are several ways to evaluate a portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns	
Period ended September 30, 2011	Life of Portfolio
UNIQUE Index Portfolio 2030	-8.80%
UNIQUE Index Portfolio 2030 Composite	-8.46%
Barclays Capital U.S. 5–10 Year Treasury Bond Index	13.01%
MSCI EAFE Index	-14.30%
Dow Jones U.S. Total Stock Market Index	-9.88%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Index Portfolio 2030 Composite Index, an approximate weighted combination of the following unmanaged indices: the Barclays Capital U.S. 5–10 Year Treasury Bond Index, the MSCI EAFE (Europe, Australasia, Far East) Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any.

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year. These numbers will be reported once the Portfolio is a year old.

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

UNIQUE Index Conservative Portfolio

Performance: The Bottom Line

Performance

There are several ways to evaluate a portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

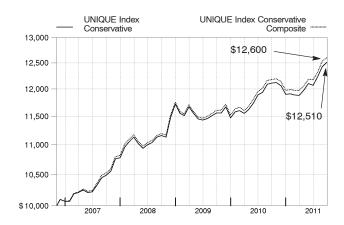

Cumulative Total Returns		
Periods ended September 30, 2011	Past 1 year	Life of Portfolio
UNIQUE Index Conservative	3.30%	25.10%
UNIQUE Index Conservative Composite	3.47%	26.00%
Barclays Capital U.S. 3 Month Treasury Bellwether Index	0.16%	8.84%
Barclays Capital U.S. 5–10 Year Treasury Bond Index	7.54%	49.72%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Index Conservative Portfolio Composite Index, an approximate weighted combination of the following unmanaged indices: the Barclays Capital U.S. 3 Month Treasury Bellwether Index and the Barclays Capital U.S. 5–10 Year Treasury Bond Index. These benchmarks include reinvested dividends and capital gains, if any.

Average Annual Total Returns		
Periods ended September 30, 2011	Past 1 year	Life of Portfolio
UNIQUE Index Conservative	3.30%	4.68%
UNIQUE Index Conservative Composite	3.47%	4.83%
Barclays Capital U.S. 3 Month Treasury Bellwether Index	0.16%	1.74%
Barclays Capital U.S. 5–10 Year Treasury Bond Index	7.54%	8.58%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

\$10,000 Over Life of Portfolio

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Index Conservative Portfolio on November 6, 2006, when the Portfolio started. The chart shows how the value of your investment would have changed, and also shows how the UNIQUE Index Conservative Portfolio Composite Index performed over the same period.

Fund Talk: The Managers' Overview

Christopher Sharpe (left) and Andrew Dierdorf, Co-Portfolio Managers of the UNIQUE College Investing PlanSM Portfolios

Q. Chris, how did the Portfolios perform during the 12 months ending September 30, 2011?

C.S. While the Portfolios were helped by a strong rally in the equity markets during the first half of the year, the second half was more challenging, as a steady stream of negative headline events and volatile investor sentiment resulted in a shift away from riskier assets and toward those with perceived safety. For the year, performance for the actively managed, age-based and static-allocation Portfolios was mixed, as the Portfolios with shorter time horizons and more exposure to the investment-grade debt asset class generally outpaced the Portfolios with longer time horizons and higher allocations to the equity asset classes. In relative terms, each of the actively managed age-based and static-allocation Portfolios, except Conservative Portfolio, lagged its respective Composite index. Each of the age-based index and static-allocation index Portfolios modestly trailed its respective Composite index, consistent with our expectations. (For specific Portfolios results, please refer to the performance section of this report.)

Q. How would you describe the investment environment during the past year?

C.S. The period began on a positive note, as equity markets benefited from investors' increased appetite for riskier assets in the wake of the Federal Reserve's announcement of additional economic stimulus. In general, equities and high-yield bonds enjoyed positive results, while investments perceived to be more conservative, such U.S. Treasuries and other investment-grade bond categories, delivered more-muted returns. However, by April 2011, uncertainty impacted the equity markets, as numerous negative headline events induced a flight to quality. Investors became increasingly concerned about economic growth in the U.S., while the unemployment rate showed minimal improvement, consumer sentiment declined and housing prices remained depressed. The U.S. equity market was influenced by heated political debate during the final two weeks of July over raising the federal debt ceiling, turmoil resulting from Europe's deteriorating debt crisis and Standard & Poor's August 5 downgrade of its long-term sovereign credit rating on the United States. Amid this environment, equities fell across the globe, as did high-yield securities. As demand for U.S. Treasuries increased, their prices rose and yields fell to new record lows. Other investment-grade bond categories also benefited from the volatile market environment.

Q. Andrew, how did the Portfolios' equity asset classes perform?

A.D. As Chris mentioned, U.S. equities experienced solid performance during the first half of the period, but increasing market volatility in the second half caused the equity market to give back nearly all of the ground it had gained. For the one-year period ending September 30, 2011, U.S. equities, as measured by the Dow Jones U.S. Total Stock Market IndexSM, rose 0.67%. All of the underlying U.S. equity funds — except Fidelity® Growth Company Fund and Fidelity® Blue Chip Growth Fund — lagged the Dow Jones index, which led the Portfolios' U.S. equity asset class in aggregate to underperform. Primary holdings Fidelity Disciplined Equity Fund, Fidelity Equity-Income Fund and Fidelity Dividend Growth Fund were major detractors, all declining within the 5% to 6% range. Turning to non-U.S. equities, all of the underlying funds in this asset class meaningfully underperformed the 9.50% decline of a blended benchmark combining the returns of the MSCI® EAFE® (Europe, Australasia, Far East) Index, to which we compared performance through mid-February, and the MSCI® ACWI® (All Country World Index) ex USA Index, to which we compared performance for the period's final seven and a half months. Fidelity Overseas Fund and Fidelity Diversified International Fund, the Portfolios' two main non-U.S. equity holdings, fell 13% and 11%, respectively, as concern about the debt crisis in Europe plagued markets worldwide. However, Fidelity Emerging Markets Fund did the worst, declining roughly 18%, as China, India and other emerging-markets countries showed signs of monetary tightening and slowing economic growth.

Q. What about the bond asset classes?

A.D. Disappointing U.S. economic data and investors' growing aversion to risk provided a supportive backdrop for more-conservative investments as the period progressed, and investment-grade bonds delivered positive returns. The Portfolios' index for its investmentgrade debt asset class, the Barclays Capital® U.S. Intermediate Government/Credit Bond Index, gained 3.40%. In aggregate, the Portfolios' underlying investments here outperformed the Barclays Capital index. Fidelity Total Bond Fund, the Portfolios' anchor in this asset class, was the most notable contributor, riding strong results from its investment-grade bond holdings. In the Portfolios' high-yield debt asset class, in aggregate, the underlying funds delivered a positive absolute result but fell slightly short of The BofA Merrill LynchSM US High Yield Constrained Index, which gained 1.30%. Meanwhile, in the shortterm debt asset class, Fidelity Short-Term Bond Fund contributed to the Portfolios' aggregate performance in this category, which was comfortably ahead of the 0.16% gain of the Barclays Capital® U.S. 3 Month Treasury Bellwether Index.

Q. What is your near-term outlook?

A.D. We believe volatility will continue to be a defining factor as we progress through the rest of 2011. High levels of debt in numerous developed countries — including the U.S. — as well as continued elevated unemployment rates and uncertain economic growth, could impact the investment market in the short term. At the same time, when we step back to view the secular picture, we are seeing nations slowly addressing the debt contagion, and many companies are showing improving business fundamentals, such as steady earnings growth and positive free cash flow. We remain committed to the Portfolios'

disciplined investment approach of emphasizing diversification and targeting an appropriate return for the amount of risk taken in each Portfolio. We believe the Portfolios' diversified investment strategy can provide participants with an effective approach to saving for college.

Portfolio Facts

Goals: All of the age-based Portfolios seek capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries for whom they are designed. There are six static allocation Portfolios. The investment objective of Conservative and Index Conservative Portfolios is preservation of capital by allocating their assets among bond and money market funds. Income is a secondary objective. The investment objective of the 70% Equity and Index 70% Equity Portfolios is to maximize total return over the long term by allocating assets among stock and bond mutual funds. The investment objective of 100% Equity and Index 100% Equity Portfolios is growth of capital over the long term. Bank Deposit Portfolio seeks preservation of capital. Each of the individual fund Portfolios has the same investment objective as the underlying mutual fund in which each invests.

Start dates: July 1, 1998; except 2018, which started on January 4, 1999; 70% Equity Portfolio, which started on May 10, 2001; 100% Equity Portfolio, which started on May 7, 2001; 2021 Portfolio and Conservative Portfolio, both of which started on December 13, 2001; 2024, which started on December 27, 2004; Index Fund Portfolios (age-based, static and individual) and Money Market Portfolio, which started on November 6, 2006; Index 2027 Portfolio and 2027 Portfolio, which started on December 14, 2007; Bank Deposit Portfolio, which started on September 16, 2010; Index 2030 Portfolio and 2030 Portfolio, which started on December 28, 2010

Co-Managers: Christopher Sharpe, since 2005; co-manager, Fidelity Advisor Stock Selector All Cap Fund, since 2010; Fidelity Stock Selector All Cap Fund, since 2009; several Fidelity asset allocation funds, since 2005; joined Fidelity in 2002; Andrew Dierdorf, since 2007; co-manager, several Fidelity asset allocation funds, since 2007; joined Fidelity in 2004

Christopher Sharpe on recent changes to the UNIQUE College Investing Plan Portfolios:

"During the period, Fidelity made important changes to the actively managed age-based UNIQUE College Investing Plan Portfolios' underlying fund lineup and benchmark for the Portfolios' non-U.S. investments.

"First, the Portfolios began establishing a position in Fidelity Stock Selector All Cap Fund, while transitioning out of Fidelity Large Cap Core Enhanced Index Fund and Fidelity OTC Portfolio. These shifts were intended to help provide the Portfolios with an improved risk/return profile, while also enhancing overall diversification of the Portfolios.

"In addition, Fidelity Strategic Real Return Fund is being removed. In its place, Fidelity is adding five funds, with a goal of increasing the ability to tailor the risk/return profiles of the Portfolios: Fidelity Commodity Strategy Fund, Fidelity Floating Rate High Income Fund, Fidelity Inflation-Protected Bond Fund, Fidelity Real Estate Income Fund and Fidelity Real Estate Investment Portfolio.

"Consistent with the long-term strategic nature of allocation decisions Fidelity makes for the Portfolios, these changes are occurring gradually over several months.

"Second, as of February 15, 2011, the actively managed age-based Portfolios began using the MSCI® ACWI® (All Country World Index) ex USA Index, which includes emerging-markets exposure, as the benchmark for the performance of the Portfolios' non-U.S. equity asset class. As we mentioned in the last report to shareholders, the Portfolios added an allocation to Fidelity Emerging Markets Fund to gain more-diversified exposure to countries and companies located outside the United States. We believe the MSCI ACWI ex USA index provides a benchmark that is more representative of the Portfolios' underlying investments."

35

Expected Asset and Benchmark Allocations

During the coming months, we'll gradually reallocate each of the target investment mixes of the UNIQUE Plan's Actively-Managed Fund Portfolio's. The table below illustrates the target mix we'd like to achieve for each Age-Based and Static Portfolio on March 31, 2012.

Projected Target Mix: Actively Managed Fund Portfolios												
	College	2012	2015	2018	2021	2024	2027	2030	Conservative	70% Equity	100% Equity	
Domestic Equity Funds	14.0%	14.8%	24.9%	34.8%	44.4%	53.3%	59.6%	61.6%	_	49.0%	70.0%	
International Equity Funds	6.0%	6.4%	10.7%	14.9%	19.0%	22.8%	25.6%	26.4%	_	21.0%	30.0%	
Inv. Grade Fixed-Income Funds	40.0%	40.1%	41.2%	38.3%	27.1%	16.7%	4.7%	_	45.0%	20.0%		
High Yield Fixed-Income Funds				0.3%	5.1%	7.2%	10.1%	12.0%	_	10.0%		
Short-Term Funds	40.0%	38.7%	23.2%	11.7%	4.4%	_	_	_	55.0%		_	

Reflecting the changes to the target investment mixes described above, each Portfolio's composite benchmark will change its allocation, as necessary, from October 1, 2011 to March 31, 2012. The table below illustrates these changes.

Composite Benchmarks: Actively Managed Fund Portfolios												
	College	2012	2015	2018	2021	2024	2027	2030	Conservative	70% Equity	100% Equity	
Dow Jones U.S. Total Stock Market Index	14.0%	14.8%	24.9%	34.8%	44.4%	53.3%	59.6%	61.6%	_	49.0%	70.0%

Annualized
For the period November 6, 2006 (commencement of operations) to September 30, 2007.
Total returns for periods of less than one year are not annualized.
Total returns would have been lower had certain expenses not been reduced during the period.
Amount represents less than \$.01 per unit.
Calculated based on average units outstanding during the period.

UNIQUE Index College Portfolio Investment Summary

Portfolio Holdings as of September 30,	2011
	% of Portfolio's investments
Domestic Equity Funds	
Spartan Total Market Index Fund Investor Class	13.7
International Equity Funds	
Spartan International Index Fund Investor Class .	5.9
Investment Grade Fixed-Income Funds	
Spartan Intermediate Treasury Bond Index Fund Investor Class	40.3
Short-Term Funds	
Fidelity Institutional Money Market Portfolio Institutional Class	40.1
Net Other Assets (Liabilities)	0.0
	100.0

The current allocation is based on the Portfolio's holdings as of September 30, 2011. The expected allocation represents the Portfolio's anticipated target asset allocation at March 31, 2012.

Annualized
For the period November 6, 2006 (commencement of operations) to September 30, 2007.
Total returns for periods of less than one year are not annualized.
Calculated based on average units outstanding during the period.
The amount shown for a unit outstanding does not correspond with aggregate net gain (loss) on investments for the period due to the timing of sales and repurchases of units in relation to fluctuating market values of investments of the Portfolio.

Notes to Financial Statements

For the period ended September 30, 2011

1. Organization

The New Hampshire Higher Education Savings Plan Trust (Trust) was formed to establish and maintain a qualified tuition program under section 529 of the Internal Revenue Code of 1986, as amended. The Treasurer of the State of New Hampshire (State of New Hampshire) is the Trustee of the Trust. These financials report on: UNIQUE College Portfolio, UNIQUE Portfolio 2012, UNIQUE Portfolio 2015, UNIQUE Portfolio 2018, UNIQUE Portfolio 2021, UNIQUE Portfolio 2024, UNIQUE Portfolio 2024, UNIQUE Portfolio 2027, UNIQUE Portfolio 2030, UNIQUE Index Portfolio, UNIQUE Index Portfolio 2012, UNIQUE Index Portfolio 2015, UNIQUE Index Portfolio 2018, UNIQUE Index Portfolio 2015, UNIQUE Index Portfolio 2018, UNIQUE Index Portfolio 2021, UNIQUE Index Portfolio 2024, UNIQUE Index Portfolio 2027, UNIQUE Index Portfolio 2030, UNIQUE Index Conservative Portfolio, UNIQUE Index Portfolio and UNIQUE Bank Deposit Portfolio (Portfolios). The Portfolios invest primarily in a combination of other Fidelity equity, fixed-income, and short-term funds, collectively referred to as the Underlying Funds, managed by Fidelity Management & Research Company (FMR). There are individual fund Portfolios which invest in a single equity, fixed-income or money market fund, also managed by FMR. The Bank Deposit Portfolio invests in an interest-bearing account held at Wells Fargo Bank, N.A.

UNIQUE Portfolio 2030 and UNIQUE Index Portfolio 2030 commenced operations on December 28, 2010. In December 2010, UNIQUE Portfolio 2009 and UNIQUE Index Portfolio 2009 were liquidated and the assets were transferred into UNIQUE College Portfolio and UNIQUE Index College Portfolio, respectively.

2. Significant Accounting Policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Events or transactions occurring after period end through the date that the financial statements were issued, December 13, 2011 have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Portfolios:

Security Valuation. Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. Each Portfolio categorizes the inputs to valuation techniques used to value their investments into a disclosure hierarchy consisting of three levels as shown below:

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs
- Level 3 unobservable inputs (including each Portfolio's own assumptions based on the best information available)

Valuation techniques used to value each Portfolio's investments by major category are as follows. Investments in the Underlying Funds are valued at their closing net asset value (NAV) each business day and are categorized as Level 1 in the hierarchy.

Investment Transactions and Income. For financial reporting purposes, the investment holdings and NAV include trades executed through the end of the last business day of the period. The NAV per unit for processing participant transactions is calculated as of the close of business of the NYSE, normally 4:00 p.m. Eastern time and includes trades executed through the end of the prior business day. Gains and losses on securities sold are determined on the basis of average cost. Income and capital gain distributions from the Underlying Funds, if any, are recorded on the ex-dividend date. Interest income is accrued as earned. There are no distributions of net investment gains or net investment income to the Portfolios' participants or beneficiaries.

Expenses. Expenses are recorded on the accrual basis. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known. Expenses included in the accompanying financial statements reflect the expenses of each Portfolio and do not include any expenses associated with the Underlying Funds.

Other. There are no unrecognized tax benefits in the accompanying financial statements in connection with the tax positions taken by each Portfolio. The Portfolios do not file any tax returns.

3. Fees

The Trustee has entered into a Management and Administrative Services agreement with FMR LLC (the parent company of the group of companies commonly known as Fidelity Investments), Strategic Advisers, Inc. (Strategic), and Fidelity Brokerage Services, LLC (together Fidelity) to provide administrative, record keeping, distribution, marketing, and investment management services to the Trust. According to this agreement and a related investment advisory agreement with Strategic, an investment adviser registered under the Investment Advisers Act of 1940, a Management and Administration Fee is charged to the Portfolios at an annual rate based on the net assets of each Portfolio. The Management and Administration Fee has up to three components, a Program Management Fee that is paid to Fidelity, a Bank Administration Fee that is also paid to Fidelity, and a State Fee that is paid to the Trustee.

Notes to Financial Statements - continued

3. Fees - continued

For Portfolios that invest in underlying actively managed funds, the Program Management Fee is charged at an annual rate of .08% from December 1, 2009 through December 31, 2010, .09% from January 1, 2011 through December 31, 2011 and .10% from January 1, 2012 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For Portfolios that invest in underlying index funds, the Program Management Fee is charged at an annual rate of .05% from December 1, 2009 through December 31, 2010, .06% from January 1, 2011 through December 31, 2011 and .075% from January 1, 2012 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For the Bank Deposit Portfolio, the Program Management Fee is charged at an annual rate ranging from .00% to .05% depending on the daily Federal Funds Target Rate.

The Bank Administration Fee paid to Fidelity for its administration services in connection with the Bank Deposit Portfolio is charged at an annual rate ranging from .00% to .40% depending on the daily Federal Funds Target Rate. The Bank Administration Fee is charged only to the Bank Deposit Portfolio.

For Portfolios that invest in underlying actively managed funds, the State Fee is charged at an annual rate of .12% from December 1, 2009 through December 31, 2010, .11% from January 1, 2011 through December 31, 2011 and .10% from January 1, 2012 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For Portfolios that invest in underlying index funds, the State Fee is charged at an annual rate of .10% from December 1, 2009 through December 31, 2010, .09% from January 1, 2011 through December 31, 2011 and .075% from January 1, 2012 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For the Bank Deposit Portfolio, the State Fee is charged at an annual rate of .05%.

For the period ended September 30, 2011 FMR LLC voluntarily agreed to waive certain expenses of the UNIQUE Money Market Portfolio. Waivers are shown on the Portfolio's Statement of Operations under the caption "Expense reductions."

4. Other Information

In the normal course of business, the Portfolios may enter into contracts that provide general indemnifications. The Portfolios' maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Portfolios. The risk of material loss from such claims is considered remote.

The Portfolios do not invest in the Underlying Funds for the purpose of exercising management or control; however, investments by the Portfolios within their principal investment strategies may represent a significant portion of an Underlying Fund's net assets. At the end of the period, no portfolios held a significant portion of the outstanding shares of any Underlying Fund.

As of September 30, 2011, the Portfolios in aggregate owned more than 20% of the outstanding shares of the following Underlying Funds:

	% of shares held
Fidelity Stock Selector All Cap Fund	28%

In May 2011, the Financial Accounting Standards Board issued Accounting Standard Update No. 2011-04, Fair Value Measurement (Topic 820) — Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The update changes the wording used to describe the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. The update is effective during interim and annual periods beginning after December 15, 2011. Management is currently evaluating the impact of the update's adoption on the Portfolios' financial statement disclosures.

5. Subsequent Event

Effective October 4, 2011, the Plan began to offer eight Multi-Firm Portfolios. These Portfolios will invest in a combination of Fidelity mutual funds and non-Fidelity mutual funds. The expenses for the Portfolios will include a Program Management fee of .25% of net assets and a Trustee Fee of .10% of net assets.

Report of Independent Auditors

To the Fiscal Committee of the General Court of the State of New Hampshire, the Trustee of the New Hampshire Higher Education Savings Plan Trust and the Participants of The UNIQUE College Investing Plan:

In our opinion, the accompanying statements of assets and liabilities, including the schedules of portfolio investments as of September 30, 2011, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the: New Hampshire Higher Education Savings Plan Trust: UNIQUE College Portfolio, UNIQUE Portfolio 2012, UNIQUE Portfolio 2015, UNIQUE Portfolio 2018, UNIQUE Portfolio 2021, UNIQUE Portfolio 2024, UNIQUE Portfolio 2027, UNIQUE Portfolio 2030, UNIQUE Conservative Portfolio, UNIQUE 70% Equity Portfolio, UNIQUE 100% Equity Portfolio, UNIQUE Money Market Portfolio, UNIQUE Index College Portfolio, UNIQUE Index Portfolio 2012, UNIQUE Index Portfolio 2015, UNIQUE Index Portfolio 2018, UNIQUE Index Portfolio 2021, UNIQUE Index Portfolio 2024, UNIQUE Index Portfolio 2027, UNIQUE Index Portfolio 2030, UNIQUE Index Conservative Portfolio, UNIQUE Index 70% Equity Portfolio, UNIQUE Index 100% Equity Portfolio, UNIQUE Intermediate Treasury Index Portfolio, UNIQUE International Index Portfolio, UNIQUE Spartan 500 Index Portfolio, UNIQUE Total Market Index Portfolio and UNIQUE Bank Deposit Portfolio (collectively the Portfolios) at September 30, 2011, and the results of each of their operations, the changes in each of their net assets and each of their financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. The financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Portfolios' management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which include confirmation of securities at September 30, 2011 by correspondence with the transfer agent, provide a reasonable basis for our opinion.
