This report and the financial statements contained herein are submitted for the general information of the holders of units of the Portfolios. This report is not authorized for distribution to prospective participants in the Portfolios unless preceded or accompanied by a current Fact Kit.

Portfolio units are not deposits or obligations of, or guaranteed by, any depository institution. Units are not insured by the FDIC, Federal Reserve Board or any other agency, and are subject to investment risks, including possible loss of principal amount invested.

Although the underlying deposits are eligible for FDIC insurance, subject to applicable federal deposit insurance limits, the Units of the Bank Deposit Portfolio are not insured or guaranteed by the FDIC or any other government agency. You are responsible for monitoring the total amount of your assets on deposit at the depository bank, including amounts held directly at the depository bank. All such deposits held in the same ownership capacity at the depository bank are subject to aggregation and to the current FDIC insurance coverage limitation of \$250,000. Please see a 529 Fact Kit for more details.

Neither the Portfolios, the mutual funds in which they invest, nor Fidelity Distributors Corporation is a bank. For more information on any Fidelity fund, including charges and expenses, call 1-800-544-6666 for a free prospectus. For more information on the UNIQUE College Investing Plan, call 1-800-544-1914 for a free Fact Kit. Read it carefully before you invest or send money.

Trustee's Message to Participants

Dear Participant:

On behalf of the State of New Hampshire and the College Tuition Savings Plan Advisory Commission (the "Commission"), I am pleased to provide you with your UNIQUE College Investing Plan (the "UNIQUE Plan") Annual Report for the one-year period from October 1, 2012, through September 30, 2013.

The Annual Report is designed to provide you with an opportunity to review the UNIQUE Plan in depth, including the performance of the Portfolios, along with expense, holdings and asset allocation information. Additionally, the *Managers' Overview*, a discussion with Co-Portfolio Managers Andrew Dierdorf and Christopher Sharpe, offers insight into the performance of the Portfolios and the markets over the past year, as well as an outlook for the months ahead.

We are pleased to offer you, our UNIQUE Plan Participants, a diverse selection of investments to help achieve your college savings goals. The UNIQUE Plan includes age-based and static Portfolios that are invested in Fidelity mutual funds, as well as age-based Multi-Firm Portfolios that invest in mutual funds from a broad universe of investment companies.

In addition, the UNIQUE Plan offers Index Portfolios that are invested in Fidelity index funds. As of August 1, 2013, the program management fee for the Fidelity Index Portfolios has been reduced, making these fees among the lowest in the industry. We are very cognizant of how challenging it is to save for the rising costs of college. This fee reduction means more of your hard-earned money will be contributed to your child's education fund. And as we all know, any amount of savings for college can help in the long run.

With this change, the UNIQUE Plan remains one of the most comprehensive and competitively priced college savings programs in the country.

And as you know, UNIQUE Plan investments can grow tax deferred and withdrawals for qualified higher education expenses will be free from federal income tax.

We encourage you to call Fidelity's dedicated college planning representatives at 1-800-544-1914 for a personalized review of your account to help determine whether your investments are appropriately allocated based on your college savings goals.

Thank you for choosing the UNIQUE College Investing Plan. We look forward to serving your needs for years to come.

Sincerely,

Catherine A. Provencher

Catherine Liovenche

State Treasurer

State of New Hampshire

UNIQUE College Portfolio (Fidelity Funds)

Performance: The Bottom Line

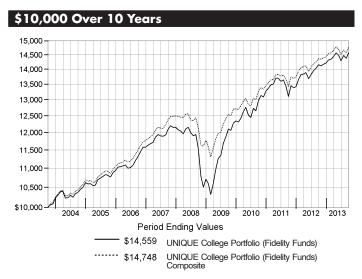

Performance

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Past 10 years
UNIQUE College Portfolio (Fidelity Funds)	2.92%	26.27%	45.59%
UNIQUE College Portfolio (Fidelity Funds) Composite	2.71%	21.67%	47.48%
Dow Jones SM – UBS Commodity Index Total Return	-14.35%	-23.79%	23.56%
Fidelity Real Estate Income Composite Index	0.06%	77.45%	106.96%
Barclays® U.S. Aggregate Bond Index	-1.68%	30.14%	56.70%
Barclays® U.S. 3 Month Treasury Bellwether Index	0.11%	0.96%	18.78%
Barclays® U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L)	-6.10%	29.51%	66.50%
The BofA Merrill Lynch SM US High Yield Constrained Index	7.09%	87.41%	130.55%
MSCI® ACWI® (All Country World Index) ex USA Index	16.61%	36.36%	135.15%
S&P®/LSTA Leveraged Performing Loan Index	5.07%	49.09%	69.35%
Dow Jones SM U.S. Total Stock Market Index	21.44%	66.18%	122.38%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE College Portfolio (Fidelity Funds) Composite, an approximate weighted combination of the following unmanaged indices: the Dow JonesSM – UBS Commodity Index Total Return, the Fidelity Real Estate Income Composite Index, the Barclays[®] U.S. Aggregate Bond Index, the Barclays[®] U.S. 3 Month Treasury Bellwether Index, the Barclays® U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), The BofA Merrill LynchSM US High Yield Constrained Index, the MSCI® ACWI® (All Country World Index) ex USA Index, the S&P®/LSTA Leveraged Performing Loan Index, and the Dow JonesSM U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Retu	rns		
Periods ended September 30, 2013	Past 1 year	Past 5 years	Past 10 years
UNIQUE College Portfolio (Fidelity Funds)	2.92%	4.78%	3.83%
UNIQUE College Portfolio (Fidelity Funds) Composite	2.71%	4.00%	3.96%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-5.29%	2.14%
Fidelity Real Estate Income Composite Index	0.06%	12.15%	7.54%
Barclays U.S. Aggregate Bond Index	-1.68%	5.41%	4.59%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.19%	1.74%
Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L)	-6.10%	5.31%	5.23%
The BofA Merrill Lynch US High Yield Constrained Index	7.09%	13.39%	8.71%
MSCI ACWI (All Country World Index) ex USA Index	16.61%	6.40%	8.93%
S&P/LSTA Leveraged Performing Loan Index	5.07%	8.31%	5.41%
Dow Jones U.S. Total Stock Market Index	21.44%	10.69%	8.32%

Past 10 Years: Let's say hypothetically that \$10,000 was invested in the UNIQUE College Portfolio (Fidelity Funds) on September 30, 2003 (past ten year period). The chart shows how the value of that investment would have changed, and also shows how the UNIQUE College Portfolio (Fidelity Funds) Composite performed over the same period.

9

Understanding Performance

How a Portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a Portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

UNIQUE Portfolio 2015 (Fidelity Funds)

Performance: The Bottom Line

Performance

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Portfolio 2021 (Fidelity Funds) Composite performed over the same period.

15

Understanding Performance

How a Portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a Portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

UNIQUE Portfolio 2024 (Fidelity Funds)

Performance: The Bottom Line

Performance

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Performance: The Bottom Line

Performance

The information provided in the tables below shows you the performance of the Portfolio with comparisons over different time periods to the portfolio's relevant benchmark. Seeing the returns over different time periods can help you assess the portfolio's performance across multiple market environments. The performance information is presented in two ways — cumulative total returns and average annual total returns.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Money Market Portfolio*	0.00%	0.93%	8.60%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.96%	9.06%

^{*} A portion of the Portfolio's expenses were reimbursed by Fidelity. Absent reimbursement, returns would have been lower.

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. The Portfolio started on November 6, 2006. For example, if you invested \$1,000 in a portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the Barclays U.S. 3 Month Treasury Bellwether Index. This benchmark includes reinvested dividends and capital gains, if any. The index returns are for the one-year and five-year periods ending September 30, 2013 and for the Life of Portfolio period from November 6, 2006 to September 30, 2013.

Average Annual Total Returns	;		
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Money Market Portfolio*	0.00%	0.19%	1.20%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.19%	1.26%

^{*} A portion of the Portfolio's expenses were reimbursed by Fidelity. Absent reimbursement, returns would have been lower.

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Understanding Performance

UNIQUE College Portfolio (Fidelity Index)

Performance: The Bottom Line

Performance

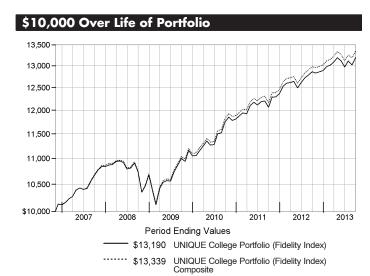

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE College Portfolio (Fidelity Index)	2.57%	22.81%	31.90%
UNIQUE College Portfolio (Fidelity Index) Composite	2.81%	24.02%	33.39%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-23.79%	-19.69%
Barclays U.S. Aggregate Bond Index	-1.68%	30.14%	41.35%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.96%	9.06%
MSCI® EAFE® Index	23.91%	36.97%	14.21%
Dow Jones U.S. Total Stock Market Index	21.44%	66.18%	47.49%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE College Portfolio (Fidelity Index) Composite, an approximate weighted combination of the following unmanaged indices: the Dow Jones — UBS Commodity Index Total Return, the Barclays U.S. Aggregate Bond Index, the Barclays U.S. 3 Month Treasury Bellwether Index, the MSCI EAFE Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE College Portfolio (Fidelity Index)	2.57%	4.20%	4.09%
UNIQUE College Portfolio (Fidelity Index) Composite	2.81%	4.40%	4.26%
Dow Jones - UBS Commodity Index Total Return	-14.35%	-5.29%	-3.13%
Barclays U.S. Aggregate Bond Index	-1.68%	5.41%	5.14%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.19%	1.26%
MSCI® EAFE® Index	23.91%	6.49%	1.94%
Dow Jones U.S. Total Stock Market Index	21.44%	10.69%	5.79%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE College Portfolio (Fidelity Index) on November 6, 2006, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE College Portfolio (Fidelity Index) Composite performed over the same period.

Understanding Performance

How a Portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a Portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Performance

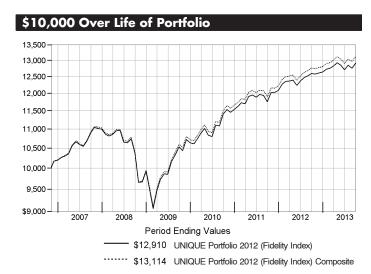

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Portfolio 2012 (Fidelity Index)	2.54%	24.61%	29.10%
UNIQUE Portfolio 2012 (Fidelity Index) Composite	2.81%	26.28%	31.14%
Dow Jones - UBS Commodity Index Total Return	-14.35%	-23.79%	-19.69%
Barclays U.S. Aggregate Bond Index	-1.68%	30.14%	41.35%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.96%	9.06%
MSCI EAFE Index	23.91%	36.97%	14.21%
Dow Jones U.S. Total Stock Market Index	21.44%	66.18%	47.49%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Portfolio 2012 (Fidelity Index) Composite, an approximate weighted combination of the following unmanaged indices: the Dow Jones — UBS Commodity Index Total Return, the Barclays U.S. Aggregate Bond Index, the Barclays U.S. 3 Month Treasury Bellwether Index, the MSCI EAFE Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio

Dow Jones U.S. Total Stock Market Index	21.44%	13.71%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Portfolio 2030 (Fidelity Index) on December 28, 2010, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Portfolio 2030 (Fidelity Index) Composite performed over the same period.

Understanding Performance

UNIQUE Conservative Portfolio (Fidelity Index)

Performance: The Bottom Line

Performance

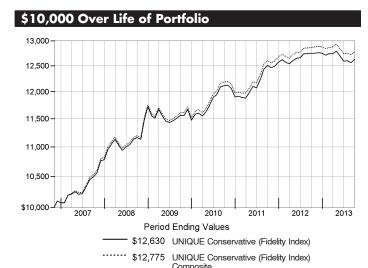

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Conservative Portfolio (Fidelity Index)	-0.94%	13.17%	26.30%
UNIQUE Conservative Portfolio (Fidelity Index) Composite	-0.69%	14.14%	27.75%
Barclays U.S. Aggregate Bond Index	-1.68%	30.14%	41.35%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.96%	9.06%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Conservative Portfolio (Fidelity Index) Composite, an approximate weighted combination of the following unmanaged indices: the Barclays U.S. Aggregate Bond Index and the Barclays U.S. 3 Month Treasury Bellwether Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Conservative Portfolio (Fidelity Index)	-0.94%	2.51%	3.44%
UNIQUE Conservative Portfolio (Fidelity Index) Composite	-0.69%	2.68%	3.61%
Barclays U.S. Aggregate Bond Index	-1.68%	5.41%	5.14%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.19%	1.26%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Conservative Portfolio (Fidelity Index) on November 6, 2006, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Conservative Portfolio (Fidelity Index) Composite performed over the same period.

Understanding Performance

How a Portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a Portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

UNIQUE Moderate Growth Portfolio (Fidelity Index)

Performance: The Bottom Line

Performance

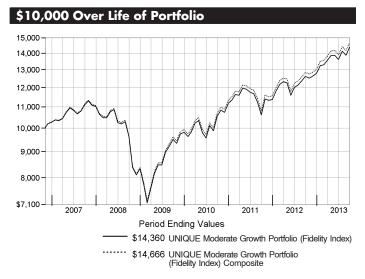

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Moderate Growth Portfolio (Fidelity Index)	13.88%	49.58%	43.60%
UNIQUE Moderate Growth Portfolio (Fidelity Index) Composite	14.21%	52.16%	46.66%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-23.79%	-19.69%
Barclays U.S. Aggregate Bond Index	-1.68%	30.14%	41.35%
MSCI EAFE Index	23.91%	36.97%	14.21%
Dow Jones U.S. Total Stock Market Index	21.44%	66.18%	47.49%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Moderate Growth Portfolio (Fidelity Index) Composite, an approximate weighted combination of the following unmanaged indices: the Dow Jones – UBS Commodity Index Total Return, the Barclays U.S. Aggregate Bond Index, the MSCI EAFE Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Returns				
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio	
UNIQUE Moderate Growth Portfolio (Fidelity Index)	13.88%	8.39%	5.38%	
UNIQUE Moderate Growth Portfolio (Fidelity Index) Composite	14.21%	8.76%	5.70%	
Dow Jones – UBS Commodity Index Total Return	-14.35%	-5.29%	-3.13%	
Barclays U.S. Aggregate Bond Index	-1.68%	5.41%	5.14%	
MSCI EAFE Index	23.91%	6.49%	1.94%	
Dow Jones U.S. Total Stock Market Index	21.44%	10.69%	5.79%	

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Moderate Growth Portfolio (Fidelity Index) on November 6, 2006, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Moderate Growth Portfolio (Fidelity Index) Composite performed over the same period.

Understanding Performance

UNIQUE Aggressive Growth Portfolio (Fidelity Index)

Performance: The Bottom Line

Performance

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

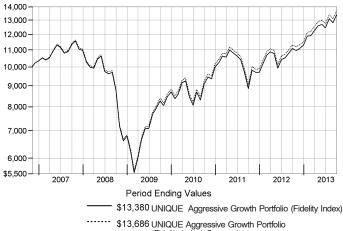

Cumulative Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Aggressive Growth Portfolio (Fidelity Index)	20.76%	52.91%	33.80%
UNIQUE Aggressive Growth Portfolio (Fidelity Index) Composite	21.02%	55.51%	36.86%
Dow Jones - UBS Commodity Index Total Return	-14.35%	-23.79%	-19.69%
MSCI EAFE Index	23.91%	36.97%	14.21%
Dow Jones U.S. Total Stock Market Index	21.44%	66.18%	47.49%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1.000 in a Portfolio that had a 5% return over the past year. the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Aggressive Growth Portfolio (Fidelity Index) Composite, an approximate weighted combination of the following unmanaged indices: the Dow Jones – UBS Commodity Index Total Return, the MSCI EAFE Index and the Dow Jones U.S. Total Stock Market Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocation.

Average Annual Total Returns			
Periods ended September 30, 2013	Past 1 year	Past 5 years	Life of Portfolio
UNIQUE Aggressive Growth Portfolio (Fidelity Index)	20.76%	8.87%	4.31%
UNIQUE Aggressive Growth Portfolio (Fidelity Index) Composite	21.02%	9.23%	4.65%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-5.29%	-3.13%
MSCI EAFE Index	23.91%	6.49%	1.94%
Dow Jones U.S. Total Stock Market Index	21.44%	10.69%	5.79%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Aggressive Growth Portfolio (Fidelity Index) on November 6, 2006, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Aggressive Growth Portfolio (Fidelity Index) Composite performed over the same period.

UNIQUE Total Market Index Portfolio	21.18%	10.36%	5.44%
Dow Jones U.S. Total Stock Market Index	21.44%	10.69%	5.79%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Total Market Index Portfolio on November 6, 2006, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the Dow Jones U.S. Total Stock Market Index performed over the same period.

Understanding Performance

UNIQUE Bank Deposit Portfolio

Performance: The Bottom Line

Performance

The information provided in the tables below shows you the performance of the Portfolio with comparisons over different time periods. Seeing the returns over different time periods can help you assess the portfolio's performance across multiple market environments. The performance information is presented in two ways — cumulative total returns and average annual total returns.

Cumulative Total Returns		
Periods ended September 30, 2013	Past 1 year	Life of Portfolio
UNIQUE Bank Deposit Portfolio	0.10%	0.40%

Cumulative total returns show the Portfolio's performance in percentage terms over the period shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. The Portfolio's returns are for the one-year period ending September 30, 2013 and for the Life of Portfolio period from September 16, 2010 to September 30, 2013.

Average Annual Total Returns		
Periods ended September 30, 2013	Past 1 year	Life of Portfolio
UNIQUE Bank Deposit Portfolio	0.10%	0.13%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Performance

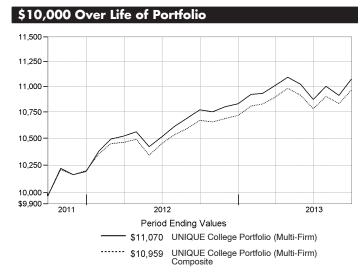

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns		
Periods ended September 30, 2013	Past 1 year	Life of Portfolio
UNIQUE College Portfolio (Multi-Firm)	2.79%	10.70%
UNIQUE College Portfolio (Multi-Firm) Composite	2.71%	9.59%
Bardays U.S. Aggregate Bond Index	-1.68%	3.70%
Bardays U.S. 3 Month Treasury Bellwether Index	0.11%	0.19%
Dow Jones U.S. Total Stock Market Index	21.44%	55.41%
MSCI ACWI (All Country World Index) ex USA Index	16.61%	31.78%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-11.14%
Fidelity Real Estate Income Composite Index	0.06%	17.13%
Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L)	-6.10%	2.06%
The BofA Merrill Lynch US High Yield Constrained Index S&P/LSTA Leveraged Performing Loan Index	7.09% 5.07%	25.78% 16.65%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE College Portfolio (Multi-Firm) Composite, an approximate weighted combination of the following unmanaged indices: the Barclays U.S. Aggregate Bond Index, the Barclays U.S. 3 Month Treasury Bellwether Index, the Dow Jones U.S. Total Stock Market Index, the MSCI ACWI (All Country World Index) ex USA Index, the Dow Jones -UBS Commodity Index Total Return, the Fidelity Real Estate Income Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), The BofA Merrill Lynch US High Yield Constrained Index, and the S&P/LSTA Leveraged Performing Loan Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocations.

Average Annual Total Returns		
Periods ended September 30, 2013	Past 1 year	Life of Portfolio
UNIQUE College Portfolio (Multi-Firm)	2.79%	5.19%
UNIQUE College Portfolio (Multi-Firm) Composite	2.71%	4.66%
Barclays U.S. Aggregate Bond Index	-1.68%	1.83%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.10%

Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L) S&P/LSTA Leveraged Performing Loan Index	-6.10% 5.07%	2.06% 16.65%

Cumulative total returns show the Portfolio's performance in percentage terms over the periods shown. For example, if you invested \$1,000 in a Portfolio that had a 5% return over the past year, the value of your investment would be \$1,050. You can compare the Portfolio's return to the performance of the UNIQUE Portfolio 2018 (Multi-Firm) Composite, an approximate weighted combination of the following unmanaged indices: the Barclays U.S. Aggregate Bond Index, the Barclays U.S. 3 Month Treasury Bellwether Index, The BofA Merrill Lynch US High Yield Constrained Index, the MSCI ACWI (All Country World Index) ex USA Index, the Dow Jones U.S. Total Stock Market Index, the Dow Jones - UBS Commodity Index Total Return, the Fidelity Real Estate Income Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), and the S&P/LSTA Leveraged Performing Loan Index. These benchmarks include reinvested dividends and capital gains, if any. The index weightings may be adjusted periodically to reflect the Portfolio's changing asset allocations.

Average Annual Total Returns		
Periods ended September 30, 2013	Past 1 year	Life of Portfolio
UNIQUE Portfolio 2018 (Multi-Firm)	7.51%	10.90%
UNIQUE Portfolio 2018 (Multi-Firm) Composite	7.28%	10.50%
Barclays U.S. Aggregate Bond Index	-1.68%	1.83%
Barclays U.S. 3 Month Treasury Bellwether Index	0.11%	0.10%
The BofA Merrill Lynch US High Yield Constrained Index	7.09%	12.10%
MSCI ACWI (All Country World Index) ex USA Index	16.61%	14.73%
Dow Jones U.S. Total Stock Market Index	21.44%	24.55%
Dow Jones – UBS Commodity Index Total Return	-14.35%	-5.71%
Fidelity Real Estate Income Composite Index	0.06%	8.19%
Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L)	-6.10%	1.02%
S&P/LSTA Leveraged Performing Loan Index	5.07%	7.97%

Average annual total returns take the Portfolio's cumulative return and show you what would have happened if the Portfolio had performed at a constant rate each year.

Life of Portfolio: Let's say hypothetically that \$10,000 was invested in the UNIQUE Portfolio 2018 (Multi-Firm) on September 28, 2011, when the Portfolio started. The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Portfolio 2018 (Multi-Firm) Composite performed over the same period.

Understanding Performance

UNIQUE Portfolio 2021 (Multi-Firm)

Performance: The Bottom Line

Performance

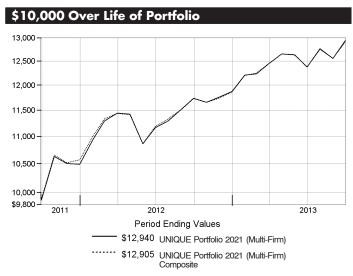

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns

Understanding Performance

How a Portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a Portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Performance

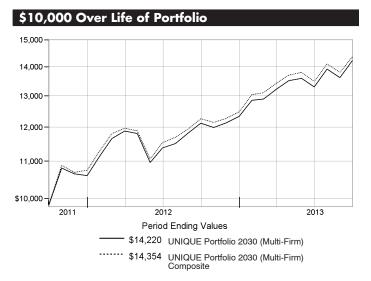

There are several ways to evaluate a Portfolio's historical performance. You can look at the total percentage change in value, the average annual percentage change or the growth of a hypothetical \$10,000 investment. Total return reflects the change in the value of an investment.

Cumulative Total Returns

The chart shows how the value of that investment would have changed, and also shows how the UNIQUE Portfolio 2030 (Multi-Firm) Composite performed over the same period.

Understanding Performance

Market Recap

The bull run in U.S. stocks settled into a fifth year, as major equity benchmarks ripped through records during the 12 months ending September 30, 2013, despite bouts of volatility at either end of the period. Strong advances were fueled by a generally improving global economy and accommodative monetary policies worldwide. The trend was positive for much of the period, based largely on strengthening U.S. economic data. The broad-based S&P 500® Index set a series of new highs in rising 19.34% for the 12 months, while the blue-chip-laden Dow Jones Industrial AverageSM also achieved significant milestones en route to a 15.59% gain. The growth-oriented Nasdaq Composite Index® had an even stronger run, advancing 22.77%. Early in the period, stocks slipped on investor anxiety over the impending U.S. presidential election and federal debt-ceiling deadline. Although equities rebounded in the new year and steadily increased through late May, news that the U.S. Federal Reserve was considering tapering its stimulative bond-buying program kept stock markets in flux for the remainder of the period. The Fed eventually put aside an imminent tapering, but markets turned skittish over a possible military strike in Syria and a U.S. budget impasse that threatened to shut down the government. Elsewhere, non-U.S. developed-markets equities continued their rebound, with the MSCI® EAFE® Index adding 23.91%.

On the bond side of the ledger, U.S. high-yield securities rallied alongside equities for most of the period, but cooled off in May and June, when interest rates spiked on possible Fed tightening. Yet, the sector still solidly advanced, with The BofA Merrill LynchSM US High Yield Constrained Index returning 7.09% for the period. The more rate-sensitive U.S. investment-grade bond category faced a tough headwind, as reflected in the -1.68% return of the Barclays® U.S. Aggregate Bond Index.

Fund Talk: The Managers' Overview

Christopher Sharpe (left) and Andrew Dierdorf, Co-Portfolio Managers of the UNIQUE College Investing PlanSM Portfolios

Q. Chris, how did the Portfolios perform for the 12 months ending September 30, 2013?

C.S. Results for each of the age-based and static Fidelity Funds and Multi-Firm Portfolios, as well as each of the Fidelity Index Funds Portfolios — except Conservative Portfolio (Fidelity Funds) and Conservative Portfolio (Fidelity Index) — were positive on an absolute basis for the one-year period. The longer-dated Portfolios, designed for participants who have the longest time horizon until matriculation, achieved the highest absolute returns. This is consistent with what we would anticipate, given that these longer-dated Portfolios have greater exposure to underlying equity funds, which generally performed very well during the 12-month period. U.S. equities were the big winners for the period. Accommodative monetary policy and minimal inflationary pressure, coupled with improvement in the global economy, provided a positive backdrop. The Dow Jones U.S. Total Stock Market IndexSM — a proxy for the Portfolios' exposure to the U.S. equity asset class — posted a roughly 21% gain. Non-U.S. stocks also netted a strong result, despite a steady headwind from a strengthening U.S. dollar and some volatility in the second half of the period. The MSCI® ACWI® (All Country World Index) ex USA Index, which represents the Portfolios' non-U.S. equity holdings, rose about 17% for the one-year period. Developed-market foreign stocks, in particular, performed very well for most of the period, buoved by favorable monetary policy pledges from eurozone officials. Meanwhile, emerging markets, including China, continued to face challenges, burdened by the weight of uncertain global economic growth. On the downside, investment-grade bonds generally lost some of their luster during the period, as concern about downside risk and a rising interest rate environment weighed on sentiment. (For specific results for Fidelity Funds Portfolios, Fidelity Index Funds Portfolios and Multi-Firm Portfolios, please refer to the performance section of this report.)

Q. How did the age-based and static Fidelity Funds Portfolios perform relative to their respective Composite benchmarks?

C.S. Each of the age-based and static Fidelity Funds Portfolios outpaced its respective Composite benchmark, thanks mostly to the Portfolios' allocations to equities. Specifically, the Portfolios' U.S. equity positions in Fidelity® Stock Selector All Cap Fund and Fidelity® Growth Company Fund — which were among the Portfolios' largest holdings in this category — were the most beneficial to results relative to the Dow Jones U.S. Total Stock Market IndexSM. In the non-U.S. equity class, Fidelity Diversified International Fund and Fidelity Overseas Fund — the Portfolios' core holdings in this asset class — delivered solid results, handily outperforming the MSCI® ACWI® ex USA benchmark.

Additionally, we'd like to mention the Portfolios' investment-grade bond investments, which posted a negative result in aggregate but still beat the roughly -2% return of the Barclays® U.S. Aggregate Bond Index. Here, Fidelity Total Bond Fund, which invests in a wide range of investment-grade bond securities, contributed to the Portfolios' relative results. On the downside, the Funds' allocation to commodities through an underlying index fund retreated under the pressure of uncertain global growth prospects. The Portfolios' investments in Treasury Inflation-Protected Securities (TIPS) also caused some drag, as TIPS declined on the prospect of the U.S. government ending its stimulative bond-buying program.

Q. Andrew, how did the Multi-Firm Portfolios perform on a relative basis during the same time frame?

A.D. Multi-Firm Portfolio 2012 was the only one that did not beat its Composite benchmark, as it finished in line. Here, the Portfolios' investments in underlying non-U.S. equity funds, as well as investment-grade bond funds, were the most influential. Three of the Portfolios' largest holdings in the non-U.S. equity category — Causeway International Value Fund, William Blair International Growth Fund and MFS Research International Fund — delivered a very strong result. Among the Portfolios' investment-grade bond holdings, Pimco Total Return Fund provided the biggest boost to relative results versus the Barclays® U.S. Aggregate Bond Index.

Q. And the Index Portfolios?

A.D. As we would expect, the Index Portfolios performed generally in line with their respective Composite indexes. The Index Portfolios have five investment components — U.S. equities, non-U.S. equities, investment-grade bonds, commodities and short-term debt instruments — with each component designed to track a corresponding index.

Q. Could you please elaborate on how the Portfolios' fixedincome asset-class results influenced the Portfolios' absolute performance?

A.D. The Portfolios with the shortest time horizons — Fidelity Funds 2012 Portfolio, Multi-Firm 2012 Portfolio and Fidelity Index 2012 Portfolio. as well as the College Portfolios — have the highest allocation to fixedincome investments, as these are designed for Participants who have shifted their focus from capital appreciation to capital preservation. Fixed-income instruments, namely U.S. investment-grade bonds, carry less risk than their equity counterparts, which is especially important for Participants closer to matriculation. So, while the shorter-dated Portfolios experienced smaller absolute returns for the period, these Funds, with their more-conservative asset allocation, also exhibited lower risk compared with their longer-dated counterparts. This asset allocation is in alignment with what we refer to as the "glide path" — our strategy for determining and gradually adjusting the appropriate risk/return balance as Participants approach their matriculation dates. Our goal, of course, is for each Portfolio to meet its ultimate objective of providing Participants with a valuable means of saving for college.

Q. Do you have any closing thoughts to share with participants?

A.D. While analyzing short-term results provides a good checkpoint for how the Portfolios are performing in recent market conditions, we as portfolio managers are acutely focused on the longer term. Each Portfolio is designed to be an investment vehicle for Participants saving for college. The Portfolios' strategy allows us the flexibility to diversify our investments across various asset classes to develop what we believe is an age-appropriate asset allocation. However, not every asset class will perform equally in all market conditions, which is exactly why we emphasize

diversification for the Portfolios. For this period, a case in point would be the strength of U.S. equities, which countered the negative showing from U.S. investment-grade bonds. Over the long term, a diversified portfolio tends to even out the peaks and valleys of volatile performance to provide more-consistent returns. Regardless of the market environment, our goal is to provide investment results that beat the total return of each Portfolio's respective Composite index. It is important to remember that the Portfolios are specifically designed to help Participants manage through periods of volatility. So while it's human nature to react in an emotional way, our job as investment managers is to continually take a step back and keep our eyes focused on the long-term goal of the Portfolios.

Portfolio Facts

Goals: All of the age-based Portfolios (Fidelity Funds, Fidelity Index and Multi-Firm) seek capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries for whom they are designed. There are six static allocation Portfolios. The investment objective of Conservative Portfolio (Fidelity Funds) and Conservative Portfolio (Fidelity Index) is preservation of capital by allocating their assets among bond and money market funds. Income is a secondary objective. The investment objective of the Moderate Growth Portfolio (Fidelity Funds) and Moderate Growth Portfolio (Fidelity Index) is to maximize total return over the long term by allocating assets among stock and bond mutual funds. The investment objective of Aggressive Growth Portfolio (Fidelity Funds) and Aggressive Growth Portfolio (Fidelity Index) is growth of capital over the long term. Bank Deposit Portfolio seeks preservation of capital. Each of the individual fund Portfolios has the same investment objective as the underlying mutual fund in which each invests.

Start dates: The Fidelity Funds Portfolios (age-based, static and individual) started on July 1, 1998, except Portfolio 2018, which started on January 4, 1999; Moderate Growth Portfolio, which started on May 10, 2001; Aggressive Growth Portfolio, which started on May 7, 2001; Portfolio 2021 and Conservative Portfolio, both of which started on December 13, 2001; Portfolio 2024, which started on December 27, 2004; Money Market Portfolio, which started on November 6, 2006; Portfolio 2027, which started on December 14, 2007; and Portfolio 2030, which started on December 28, 2010.

The Fidelity Index Portfolios (age-based, static and individual) started on November 6, 2006, except Index 2027, which started on December 14, 2007, and Index 2030, which started on December 28, 2010.

Bank Deposit Portfolio started on September 16, 2010. The Multi-Firm Portfolios started on September 28, 2011.

Co-Managers: Christopher Sharpe, since 2005; joined Fidelity in 2002; Andrew Dierdorf, since 2007; joined Fidelity in 2004

Christopher Sharpe on recent changes to the UNIQUE College Investing Plan Portfolios:

"Fidelity has made several important changes to the UNIQUE College Investing Plan Portfolios during the past year.

"As we mentioned in our last report to Participants, the actively managed, age-based and static Fidelity Funds Portfolios added positions in three investment-grade debt funds offered by Fidelity: Fidelity Corporate Bond Fund, Fidelity Investment Grade Bond Fund and Fidelity Mortgage Securities Fund. Within the high-yield debt asset class, we removed Fidelity Capital & Income Fund. In conjunction with these changes, the Composite benchmarks for the actively managed, age-based Fidelity Funds Portfolios now include the Barclays® U.S. Aggregate Bond Index in place of the Barclays U.S. Intermediate Government/Credit Index. This change was made because the Barclays U.S. Aggregate Bond Index provides a better representation of the broad investment-grade bond universe.

"In addition, the allocation to Fidelity Disciplined Equity Fund for the Fidelity Funds' age-based and static Portfolios has been removed from the U.S. equity asset class lineup. No new underlying funds were added. As a result, the desired U.S. equity portfolio characteristics will be achieved by reallocating these assets to other U.S. equity funds that are part of the existing portfolio mix.

"This change was largely driven by our conviction that this reallocated blend of underlying funds provides a better fit for the investment structure of the UNIQUE College Investing Plan Portfolios. While past performance was a consideration in the decision to remove this underlying fund, we believe the change will help improve the consistency of returns within the U.S. equity asset class for the Portfolios.

"Lastly, the age-based and static Portfolios for the Fidelity Funds, Fidelity Index and Multi-Firm products added Fidelity Series Commodity Strategy Fund as an underlying investment. This fund was added to provide the Portfolios with continued exposure to commodities. In early 2013, Fidelity notified investors that Fidelity Commodity Strategy Fund — the original underlying fund dedicated to commodities investments — was closing to new investors. The assets from the UNIQUE College Investing Plan Portfolios were fully transitioned to Fidelity Series Commodity Strategy Fund.

"Both Fidelity Commodity Strategy Fund and Fidelity Series Commodity Strategy Fund have the same investment objective—to help provide investment returns that correspond to a broad-based commodity index. Both funds are managed in a passive investment style, and both track the same index, the Dow Jones-UBS Commodity Index Total ReturnSM."

Expected Asset and Benchmark Allocations

During the coming months, we'll gradually reallocate each of the target investment mixes of the UNIQUE Plan's Age-Based and Static (Fidelity Funds) Portfolios. The table below illustrates the target mix we'd like to achieve for each Portfolio on March 31, 2014.

Projected Target Mix:	Age-Bas	sed (Fide	lity Fun	ds) Port	folios						
	College	2012	2015	2018	2021	2024	2027	2030	Conservative	Moderate Growth	Aggressive Growth

A Annualized

For the period December 28, 2010 (commencement of operations) to September 30, 2011.
Total returns for periods of less than one year are not annualized.
Calculated based on average units outstanding during the period.

UNIQUE Conservative Portfolio (Fidelity Index) Investment Summary

Portfolio Holdings as of September 30,	2013
	% of Portfolio's net assets
Investment Grade Debt Funds	
Spartan U.S. Bond Index Fund Investor Class	45.1
Short-Term Debt Funds	
Fidelity Institutional Money Market Portfolio	
Institutional Class	54.9
Net Other Assets (Liabilities)	0.0
	100.0

The period end allocation is based on the Portfolio's holdings as of September 30, 2013. The expected allocation represents the Portfolio's anticipated target asset allocation at March 31, 2014.

Net assets, end of period (in \$ thousands)

Ratio of expenses to average net assets

Ratio of net investment income (loss) to average net assets

Ratios and Supplemental Data

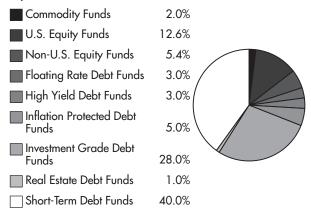

Annualized
For the period September 16, 2010 (commencement of operations) to September 30, 2010.
Amount represents less than \$.01 per unit.
Total returns for periods of less than one year are not annualized.
Calculated based on average units outstanding during the period.

Fidelity Funds Portfolios and Fidelity Index Portfolios invest primarily in a combination of other Fidelity equity, fixed-income and short-term funds managed by Fidelity Management & Research Company (FMR). There are individual Portfolios which invest in a single equity, fixed-income or money market fund, also managed by FMR. UNIQUE Bank Deposit Portfolio invests in an interest-bearing account held at Wells Fargo Bank, N.A. Multi-Firm Portfolios invest in a combination of equity and fixed-income funds not managed by Fidelity (Third party funds) and in other Fidelity equity, fixed-income and short-term funds managed by FMR. Third party funds and Fidelity equity, fixed-income and short-term funds are collectively referred to as Underlying Funds.

2. Significant Accounting Policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Events or transactions occurring after period end through the date that the financial statements were issued, January 14, 2014, have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Portfolios:

Security Valuation. Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. Each Portfolio categorizes the inputs to valuation techniques used to value their investments into a disclosure hierarchy consisting of three levels as shown below:

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs

Level 3 – unobservable inputs (including each Portfolio's own assumptions based on the best information available)

Valuation techniques used to value each Portfolio's investments by major category are as follows: Investments in the Underlying Funds are valued at their closing net asset value (NAV) each business day and are categorized as Level 1 in the hierarchy. If a Third party fund's NAV is unavailable, shares of that fund may be valued by another method that the Board of Trustees (Board) believes reflects fair value in accordance with the Board's fair value pricing policies and is categorized as Level 2 in the hierarchy. As of September 30, 2013, all investments held by the Portfolios are categorized as Level 1 under the Fair Value Hierarchy.

Investment Transactions and Income. For financial reporting purposes, the Portfolios' investment holdings and NAV include trades executed through the end of the last business day of the period. The NAV per unit for processing participant transactions is calculated as of the close of business of the New York Stock Exchange (NYSE), normally 4:00 p.m. Eastern time and includes trades executed through the end of the prior business day. Gains and losses on securities sold are determined on the basis of average cost. Income and capital gain distributions from the Underlying Funds, if any, are recorded on the ex-dividend date. Interest income is accrued as earned. There are no distributions of net investment gains or net investment income to the Portfolios' participants or beneficiaries.

Notes to Financial Statements - continued

2. Significant Accounting Policies - continued

Expenses. Expenses are recorded on the accrual basis. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known. Expenses included in the accompanying financial statements reflect the expenses of each Portfolio and do not include any expenses associated with the Underlying Funds.

Short-Term Trading (Redemption) Fees. Units held in UNIQUE International Index Portfolio and UNIQUE Total Market Index Portfolio less than 90 days are subject to a redemption fee equal to 1.00% and 0.50%, respectively, of the proceeds of the redeemed units. The fee is imposed by the mutual fund in which the Portfolio invests, not by the Portfolio. All redemption fees are retained by the Fund, not by the Portfolio and are part of the Fund's assets.

Other. There are no unrecognized tax benefits in the accompanying financial statements in connection with the tax positions taken by each Portfolio. The Portfolios do not file any tax returns.

3. Fees:

The Trustee has entered into a Management and Administrative Services agreement with FMR LLC (the parent company of the group of companies commonly known as Fidelity Investments), Strategic Advisers, Inc. (Strategic), and Fidelity Brokerage Services, LLC (together Fidelity) to provide administrative, record keeping, distribution, marketing and investment management services to the Trust. According to this agreement and a related investment advisory agreement with Strategic, an investment adviser registered under the Investment Advisers Act of 1940, a Management and Administration Fee is charged to the Portfolios at an annual rate based on the net assets of each Portfolio. The Management and Administration Fee has up to three components, a Program Management Fee that is paid to Fidelity, a Bank Administration Fee that is also paid to Fidelity, and a State Fee that is paid to the Trustee.

For Fidelity Funds Portfolios that invest in underlying actively managed funds, the Program Management Fee is charged at an annual rate of .10%. For Fidelity Index Portfolios that invest in underlying index funds, the Program Management Fee is charged at an annual rate of .075% from January 1, 2012 through July 31, 2013 and .04% from August 1, 2013 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For Multi-Firm Portfolios that invest in Fidelity funds and Third party funds, the Program Management Fee is charged at an annual rate of .25%. For the UNIQUE Bank Deposit Portfolio, the Program Management Fee is charged at an annual rate ranging from .00% to .05% depending on the daily Federal Funds Target Rate.

The Bank Administration Fee paid to Fidelity for its administration services in connection with the UNIQUE Bank Deposit Portfolio is charged at an annual rate ranging from .00% to .40% depending on the daily Federal Funds Target Rate. The Bank Administration Fee is charged only to the UNIQUE Bank Deposit Portfolio.

For Fidelity Funds Portfolios that invest in underlying actively managed funds, the State Fee is charged at an annual rate of .10%. For Fidelity Index Portfolios that invest in underlying index funds, the State Fee is charged at an annual rate of .075% from January 1, 2012 through July 31, 2013 and .05% from August 1, 2013 through the end of the contract period (December 31, 2018) and any subsequent renewal periods. For Multi-Firm Portfolios that invest in Fidelity funds and Third party funds, the State fee is charged at an annual rate of .10%. For the UNIQUE Bank Deposit Portfolio, the State Fee is charged at an annual rate of .05%.

For the period ended September 30, 2013, FMR LLC voluntarily agreed to waive certain expenses of the UNIQUE Money Market Portfolio. Waivers are shown on the Portfolio's Statement of Operations under the caption "Expense reductions."

 UNIQUE Money Market Portfolio
 \$ 256,695

4. Other Information:

In the normal course of business, the Portfolios may enter into contracts that provide general indemnifications. The Portfolios' maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Portfolios. The risk of material loss from such claims is considered remote.

The Portfolios do not invest in the Underlying Funds for the purpose of exercising management or control; however, investments by the Portfolios within their principal investment strategies may represent a significant portion of an Underlying Fund's net assets. At the end of the period, no portfolios held a significant portion of the outstanding shares of any Underlying Fund.

5. Subsequent Events:

In December 2013, the following Portfolios liquidated and all remaining assets transferred as follows:

UNIQUE Portfolio 2012 (Fidelity Funds) transferred into UNIQUE College Portfolio (Fidelity Funds) UNIQUE Portfolio 2012 (Fidelity Index) transferred into UNIQUE College Portfolio (Fidelity Index) UNIQUE Portfolio 2012 (Multi-Firm) transferred into UNIQUE College Portfolio (Multi-Firm)

In December 2013, the following Portfolios commenced operations:

UNIQUE Portfolio 2033 (Fidelity Funds) UNIQUE Portfolio 2033 (Fidelity Index) UNIQUE Portfolio 2033 (Multi-Firm)

These financial statements and financial highlights are hereafter collectively referred to as "financial statements."

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position at September 30, 2013, and the results of their operations, changes in their net assets, and the financial highlights for the periods indicated, in accordance with accounting principles generally accepted in the United States of America.
