## Beverage Manufacturer and Nano- Brewery

### SB 137

#### Relative and Applicable Statutes and Rules:

**RSA 178:12; RSA 178:12-a**

Senate Bill 137 is expected to be effective in October 2024. This bill eliminates the Nano- Brewery license (RSA 178:12-a) and combines the license type into a tiered system within the Beverage Manufacturer license (RSA 178:12).

In the coming days all currently licensed Nano Brewery licensees will receive a Beverage Manufacturer Worksheet from the Division of Enforcement & Licensing. The licensee will have to complete the worksheet and return it to the Division of Enforcement & Licensing at 50 Storrs Street Concord, NH 03301 or it can be emailed to [nhlc.licensing@liquor.nh.gov](mailto:nhlc.licensing@liquor.nh.gov). This form is required to update the licensee's file and it will have to be received prior to you receiving a newly updated license.

The licenses will be updated systematically, based on their expiration dates. The licensees with the closest expiration date (or in extended status) will be processed first. Once the worksheet is received by the Division of Enforcement & Licensing and the applicable fees are paid, the license will be activated and the licensee will receive their new license via email/mail.

A link to the new Beverage Manufacturer Worksheet can be found here:
